Blocking and Bounds.

WILD SCRAMBLES TO BE NO MORE

When Ball Passes Out of Lines There
is No Rush.

ANY HOLDING SHALL BE FOUL

Hacking Intentional Act and
Constitutes Form of Striking—
Removal from Game for
Fouls.

LINCOLN, Neb., Dec. 4.—(Special.)—Two Cornhusker foot ball games are Omaha's prospective share of the Nebraska gridiron schedule for 1910. Michigan and Iowa are the teams mentioned by local athletic men as being the possible opponents of the Cornhuskers in the Nebraska metropolis next fall. The Nebraska management is trying to book both of these schools for that city, Iowa for Thanksgiving day—the 1910 contest to be the first of a series of Turkey day games—and Michigan for the latter part of October or the fore part of November.

The movement to bring Michigan west next autumn was fostered by the alumni of that school, who live in Omaha, and is now being pushed by those men in co-operation with Manager Eager and the Nebraska alumni of Omaha. Michigan offered to meet Nebraska in Omaha last fall, but a guarantee of \$4,000 was asked, and the Nebraska board of control did not feel it could grant the request for so large a sum at that time. The offer came from the Wolverine school before Michigan scheduled with Minnesota, the Ann Arbor school preferring to play the Cornhuskers to the Gophers, who are members of the Chicago conference body, the league from which Michigan withdrew four years ago when the legislation enacted by the "Big Nine" became distasteful to the Ann Arbor students and athletic body.

Considerable encouragement has been given Nebraska's request for a game with Michigan next fall, and the Omaha alumni have received word that the Cornhuskers will be played if the Wolverine schedule can be so arranged as to permit the Ann Arbor team to journey west. Conditions now exist at Michigan, and Nebraska are now expected to meet Minnesota at Ann Arbor—and it is just that state of mind among the Wolverines that is causing their board of control to hold off in granting the Cornhuskers a foot ball date.

If Michigan goes back to the conference, Nebraska's chances of getting a game will be very slim; if it stays out of that league, a Michigan-Nebraska game in Omaha would be assured for 1910. Joining the Chicago conference would mean that Michigan would play; in addition to Minnesota, Pennsylvania and Syracuse—teams already on its schedule—Chicago and Wisconsin, and that there would be no room on its schedule for another hard game, as the one with Nebraska likely would prove to be.

But the prospect for Michigan's re-entrance into the fold of the western conference are not very bright just now. The Wolverines would like to go back and the members of the "Big Eight" would be delighted to welcome them; yet there is a big obstacle in the way of an immediate return. Michigan maintains a training table for its foot ball players, and the Chicago conference refuses to allow the schools in its league to give their athletes special food. It was the abolition of this table that was the primary cause of Michigan's leaving the conference four years ago, and it is the refusal to permit the schools to keep the table that is a hindrance to getting the Wolverines to re-join the league.

The Wolverine athletic board has told the members of the conference that if Michigan goes back into the fold, it will have to be permitted to keep a foot ball training table. Some of the conference members are willing to let the Wolverines have this privilege, but two of the schools insist that Michigan must live up to all the rules of the league if it gets in.

Matter Settled This Month.
Final action will be taken on Michigan's return to the "Big Eight" during the latter part of this month, when the conference will hold a meeting in Chicago, at which the Wolverine will have a representative. Michigan will stick for a training table, and if the two conference members refuse to vote to let the Wolverine have its way, the Chicago conference will not increase its membership this year.

The Michigan alumni in Omaha are hopeful that Nebraska will be given a date, whether the Ann Arbor school joins the conference or not, and they are bringing a deal of influence to bear to get all the western alumni to co-operate with them in securing the game.

The Iowa game with Nebraska will be played in Omaha, if the Hawkeyes will consent. Manager Eager has asked their athletic board to meet the Cornhuskers in Omaha each fall on Thanksgiving day, a term of five or ten years, his idea being to make the game an annual event for Omaha, such as the Kansas-Missouri game is for Kansas City.

Nebraska alumni and undergraduates want to have an annual game with Iowa each Thanksgiving day, so that they will have a big event to witness each fall, which will gradually become a tradition in Cornhusker and Hawkeye foot ball life. For three years they have been demanding that Nebraska get some big game for Turkey day, and now that there is a chance to make the Iowa contest an annual Thanksgiving day event they are lending all their influence to induce Iowa to accept the Cornhusker proposition.

As things stand now, though, Iowa is not permitted to play a Thanksgiving day game, because it is a member of the Chicago conference, which does not permit its teams to play on Thanksgiving day. Iowa is also a member of the Missouri valley conference, and this league permits the Turkey day games.

If Iowa wishes to meet the Cornhuskers on Thanksgiving day the course open to it will be to withdraw from the "Big Eight" or to encourage the formation of the present Chicago conference. If either of these things should occur the Hawkeyes could play the Cornhuskers.

The "Big Five" has been proposed by Chicago university, and it would include Wisconsin, Minnesota, Chicago, Illinois and Michigan, dropping the other four members of the conference into a "Little Four." Iowa could then break away from

the present Chicago conference. If either of these things should occur the Hawkeyes could play the Cornhuskers.
